REMARKS

By this response, Applicants have amended claims 19 and 27 to more clearly identify the invention. Following entry of this response, claims 1-31 will be pending in the application.

Applicants elect to prosecute, with traverse, the claims drawn to Species 1A and Sub-Species 2A as indicated. The claims readable on Species 1A are 1-12 and 15-25. The claims readable on Sub-Species 2A are: None, because the sub-species are drawn to disclosed subject matter that is not claimed in this application (i.e., Figures 25 and 27 are methods of mounting an antenna to a printed circuit board, whereas the present application claims methods of manufacturing the antenna).

Applicants traverse the Examiner's assertion that there is no generic claim in the application. Claim 1 of this amended application is the only independent claim and is, therefore, generic to all Species.

Applicants reserve the right to file one or more divisional applications directed to the non-elected species.

CHARGE STATEMENT: The Commissioner is hereby authorized to charge fees that may be required relative to this application, or credit any overpayment, to our Account 03-3975, Order No. 073169-0278129 (ATH-054).

Respectfully submitted,
